CPR Training Center (610) 270-2313

This year one in five children will have an injury serious enough to require treatment in a hospital emergency room. This is unfortunate, considering that most injuries are prevented with the proper knowledge. Whether you are a new parent, a child-care provider, or just a concerned citizen, attaining the proper knowledge can help prevent an accidental death.

Montgomery Hospital Medical Center, which has been dedicated to its surrounding communities since 1889, has joined with the American Heart Association (AHA) to bring you a CPR course designed for the non-traditional health care provider. This and other Montgomery Hospital CPR courses are taught in compliance with the AHA Standards for CPR training. In only a few hours, we will cover all the important aspects recognized by the AHA for basic life support for the infant and child to age 8.

Pediatric CPR classes cover these important topics:

- ▶ Normal heart and lung function
- ▶ Motor vehicle safety
- ▶ Indoor safety
- ▶ Outdoor safety
- ▶ Recognizing respiratory and cardiac arrest
- ▶ One rescuer CPR
- ▶ Obstructed Airway
- ▶ Legal and Ethical Issues

FEEL FREE TO REGISTER FOR ONE OF OUR OTHER CPR CLASSES, INCLUDING:

- ▶ First Aid
- ▶ Heartsaver Adult CPR
- ▶ Healthcare Provider CPR
- ▶ Infant & Child First Aid

And for the youngsters:

“Choke is No Joke,” a class for school-aged children about eating right, the Heimlich maneuver, and dialing 911 for emergency assistance.

We will also offer courses at your location/Day Care. Call (610) 270-2313 for more information.
